***Detailed Action***

This is the Office Action corresponding to amendment filed Sep 27, 2005. The application contains 20 claims. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by

Santic (Pat No 3,419,240).

The patent to Santic discloses a protector or boot (20) for a garbage can (10) comprising a base having sides to being flush with the walls and flat bottom of the garbage can (see Fig 3), the base is formed having shelf means (22 at Fig 4) inward of the exterior wall of the base. The device is being made of non-metal material (see column 1, lines 26 and 27).

***Claim Rejections - 35 USC § 103***

Claims 2-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Santic. The device shown by Santic is shown with a round shaped garbage can but it can

be used with a shaped garbage can by modifying the shape of the base to match that of the garbage can. Santic lists a series of material from which the device can be made but the specific material is considered to be one of engineering choice having no patentable significance.

Claim 20 rejected under 35 U.S.C. 103(a) as being unpatentable over Santic as applied to claims 2-19 above, and further in view of Reid (Pat No 4,342,131). The patent to Reid discloses a device comprising a base for supporting an item; said base having wheels to increase the mobility of the base. It would have been obvious to one skilled in the art at the time the invention was made to have provided the base shown by Santic with wheels as shown by Reid to increase or facilitate the mobility of the device.

#### *Response to Arguments*

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

#### *Conclusion*

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
